HONORON AUGUST STR. 1987. THE agitation for a Municipal Council for Hongkong, which has been in progress in a vague and indeterminate form for years past took something like definite shape at the meeting of the Legislative Council on Friday. The debate which then took place on the Public Health Bill was one of the most important that have ever occurred in Council Chamber, and may prove the ini- to put them off with excuses. The Public Haulth Bill provides for a Sinitary Board consisting of ten members, four whom are to be officials, four to be appointed by the Governor, and 'we to be elected. by the Chumber of Commerce and the other by the Justices of the Pegce. It is proposed on the unofficial side of the Council that the power of appointment by the Governor should be taken away and that with the exception of the es officio members all the others should be elected. Not only this: it is also proposed that the representatives of the ratepayers should have conferred on them the power of spending the rateparers' money without reference to the Governor. With regard to the latter point the Colonial Tressurer remarked that the Governor was held paramette responsible for the expenditure of the colony and could not delegate that responsibility to others except in the case of very small sums, and that the proposal to give the Sanifary Board nower - to apend large amounts on its own authority was impracticable. This would be so if the Governor's responsibility continued, but there is no resson whatever why it should not be transferred either in whole or in part At Singapore the Municipal Council has the nower of spending money; why should not a Municipal hady in Hongkong have the same authority?
